PROFESSIONAL EXPERIENCE

Full-Stack Developer

Freelance
May 2025 - Present
Remote

- Work independently as a freelance developer, managing multiple client projects simultaneously
- Develop custom web applications and websites for diverse clients across various industries
- Build responsive and modern user interfaces using React.js and Next.js with TypeScript, CSS3, Tailwind CSS, shadcn/ui, and styled-components
- Create server-side rendered and static applications using Next.js for optimal performance and SEO
- Develop robust backend systems using Node.js and TypeScript for RESTful API development
- Design and manage MongoDB databases, implementing efficient data models, schemas, and queries
- Integrate Supabase for authentication, real-time databases, and backend-as-a-service functionality
- Handle client communications, project scoping, and deliver high-quality solutions within agreed timelines
- Provide technical consulting and development services for startups and established businesses
- Optimize application performance, ensure cross-platform compatibility, and implement best practices

Senior Engineer

Nagarro
Jun 2024 - Jul 2025 · 1 yr 2 mos
India & UAE · Remote

- Assist Nagarro developers with projects where our company has more expertise
- Collaborate with developers from both RipeConcepts and Nagarro teams
- Provide technical support and guidance to development teams
- Maintain readiness for new project assignments and technology stack requirements
- Support cross-team collaboration between RipeConcepts and Nagarro developers

Senior Application Developer

RipeConcepts, Inc.
Jun 2024 - Jul 2025 · 1 yr 2 mos
Cebu, Central Visayas, Philippines · On-site

- Create Real-time Web 3D, Web AR and Web VR programs
- Code, test, deploy, and maintain all the back-end components of the product
- Optimize application performance by properly managing the central database and responses to front-end requests
- Assist front-end developers with system integration
- Create high-performance, testable, reusable, and scalable code
- Perform diagnostic tests and troubleshooting for any issues that arise

Web Developer

- Develop and maintain company websites and web applications
- Create responsive user interfaces and interactive components
- Implement new features and functionality as requested
- Ensure website performance and optimization
- Create repository for company web applications
- Update web application from old technology stack to new stack

RAKtherm Global (Plumbing)
Oct 2022 - Apr 2024 · 1 yr 7 mos
Al Jazirah Al Hamra, Ras al-Khaimah, United Arab Emirates · On-site

ReactJs Developer

- Develop and maintain web applications using React.js
- Create responsive user interfaces and interactive components
- Collaborate with backend developers for API integration
- Optimize application performance and user experience

Clockwork Logistics Systems
Jul 2022 - Oct 2022 · 4 mos
Cebu, Central Visayas, Philippines

Software Engineer

- Develop and maintain enterprise-level web applications
- Collaborate with cross-functional teams to deliver high-quality software solutions
- Implement best practices for code quality and software development
- Participate in agile development processes and sprint planning

Accenture
Jul 2021 - Jul 2022 · 1 yr 1 mo
Cebu, Central Visayas, Philippines

Web Developer

- Develop internal web applications for company processes
- Create and maintain company intranet systems
- Implement database-driven web solutions
- Provide technical support for web-based tools

Lear Corporation
Apr 2019 - Dec 2020 · 1 yr 9 mos
Central Visayas, Philippines

NOTABLE PROJECTS

Web 3D Product Visualization

Three.js, React, Node.js, MongoDB
Developed interactive 3D product visualization platform for a known Motorcycle Company, enabling customers to view products in 3D space with real-time customization options.

AR/VR Experience Platform

8thwall, MyWebAR, Three.js, WebXR
Built immersive AR/VR experiences for RipeConcepts, including virtual showrooms and interactive product demonstrations for clients.

Logistics Management System

React, TypeScript, Express.js, MySQL
Created comprehensive logistics management system for Clockwork, handling inventory tracking, route optimization, and real-time delivery updates.

Enterprise HR Portal

C#, ASP.NET, SQL Server, Bootstrap
Developed enterprise-level HR management portal for Accenture, streamlining employee onboarding, performance tracking, and resource allocation.
